

Climate change & Renewable energy

Pre-feasibility study for the use of solar energy

4.1 Europe

Project: **Development of Climate Change Adaptation Strategy for the Danube Delta for WWF Danube-Carpathian Programme**
Client: WWF
Country: Moldova, Ukraine, Romania
Period: January 2013 – May 2013
Services: CDS-Saaf Global developed a Climate Change Adaptation Strategy for the Danube Delta for WWF Danube-Carpathian Programme. The project included a comprehensive study of the possible impact of climate change on the Danube Delta.

4.2 Middle East and Africa

Project: **Social, Ecological and Agricultural Resilience in the Face of Climate Change Project Evaluation**
Client: IUCN
Country: Egypt, Palestine, Lebanon, Jordan and Morocco
Period: March 2014 – May 2014
Services: Final Evaluation of Social, Ecological and Agricultural Resilience in the Face Of Climate Change Project. This evaluation aimed at analyzing the activities and results of the SEARCH Project.

Project: **Assistance to an International Wealth Management and Project Development Company to enter the renewable energy sector in Jordan.**
Client: TerraSola Jordan for Renewable Energy
Country: Jordan
Period: September 2013 – December 2014
Services: Assist the client with the submission of bids for a 10 MW solar PV installation.

Project: **Strengthening synergies between governance of disaster risk reduction and climate change adaptation in Jordan with a view to reduce poverty**
Client: UNDP/IUCN
Country: Jordan
Period: August – November 2013
Services: Map and assess existing and potential linkages between climate change adaptation (CCA) and disaster risk reduction (DRR). Assist the Government of Jordan to design a Framework for Action and a detailed three-year Action Plan to promote potential linkages between current efforts to promote climate change adaptation and current disaster risk management efforts with the objective of increasing natural and human resilience. Identify and develop a project proposal to be supported by UNDP.

Project: **Adapting to Climate Change in the Nile Delta Coastal Zone**
Client: International Development Research Centre
Countries: Egypt
Period: 2009-2012
Services: This three-year research project, funded by the IDRC, the goal of the research was to demonstrate the value of stakeholder participation in evaluating the trade-offs between adaptation options in the stretch between Ras el-Bar and Gamasa along Egypt's northern coast, and contribute to the long-term sustainable management of coastal areas in Egypt

Project: **Assessment and Strategy Development to Respond to Sea Level Rise on Migration in Egypt**
Client: International Development Research Centre
Countries: Egypt
Period: 2010
Services: CDS-Saaf undertook a research project to study the socio-economic situation as well as the perceptions of climate change, particularly sea level rise, and the potential implications in two areas prone to sea level rise in Alexandria Governorate

Project: **Climate Change in Lake Nasser Area**
Client: International Development Research Centre
Countries: Egypt

Period: 2007-2010
Services: This action research program addresses the potential human and environmental effects of climate change in the resettlement area west of Lake Nasser.

4.3 South and South-East Asia

Project: Planning of Completion Phase for the Rural Water Supply and Sanitation Projects in Western Nepal.

Client: Finnish Consulting Group

Country: Nepal

Period: August – September 2012

Services: International Climate Sustainability and Ecosystem Based Natural Resources Management Adviser.

Project: UNEP Environmental Programme

Client: UNEP Rome

Countries: South-East Asia

Period: 2010

Services: Development of a full multi-year \$5 million UNEP proposal for the development of highland-lowland partnerships for climate change adaptation and disaster risk reduction for communities and biodiversity in the Himalayas, Hindu Kush, Karakorum and Pamirs (Bhutan, Nepal, Pakistan, Afghanistan, Tajikistan and Kyrgyzstan).

Project: Renewable Energy and Energy Efficiency Program Institutional and Financial Consultancy for Wind Power

Client: GTZ

Countries: Pakistan

Period: January 2006 – February 2006

Services: Provision of a consultant for an institutional and financial review of the wind power sector in Pakistan.

Project: Project Financing Seminar for Investments in Alternative Energy

Client: S&K Global Invest

Countries: Pakistan

Period: November 2004 – March 2005

Services: On behalf of S&K Global Invest a project financing seminar for environmental infrastructure (including hydropower and wind power) was organised at the Islamabad Serena Hotel.
