

CDS-Saaf Global V.O.F. Company Key Data

January 2016

CDS-Saaf Global is a General Partnership under Dutch Law (Chamber of Commerce Registration Number 64362140, registered in Leiden, The Netherlands) between Center for Development Services and SaafConsult. We are a niche firm that specialises in:

- Water and Environment
- Agriculture and Agribusiness
- Climate change and Renewable Energy
- Gender and Social rights

CDS-Saaf Global combines more than 25 years of solid consultancy work in a diversity of sectors throughout the Middle East, Central Africa and South Asia Regions. As an entity with more than 60 professionals working on a wide array of diverse projects, CDS-Saaf is able to provide services in the fields of research, M&E, training, capacity building, technical assistance, and the mobilization of technical and financial resources for planning and undertaking development endeavors with a network of affiliated organizations across the many regions we operate in today.

Our field of expertise include strategic management, urban water supply and sanitation, utility management, WASH, water resources policy planning and governance, climate resilience and adaptation, renewable energy, capacity building, agribusiness and agricultural development, SME development, gender and social services.

The CDS-Saaf Global team consists of a cross-disciplinary and diverse group of experts from Europe, the Middle East, Asia and Africa. We are able to accommodate a large variety of service requests in various regions of the world, while providing experts with strong knowledge of the local socio-economic context and languages. We have a robust quality control system and accomplished management to ensure that this diversity is managed in an optimal fashion. CDS-Saaf Global is truly global and categorically capable of outstanding development services.

Increased Flooding in the Danube Delta is indicative for climate change impacts – CDS-Saaf Global has worked with WWF on climate change adaptation in the Danube Delta
